Overview

Trigger:

This report may be used by department payroll/personnel staff to identify employees whose Sick and/or Converted Sick leave balances must be adjusted in order to comply with State Statutes (HB 213) and State Finance Policies (FIACCT 11-21.00). *As of January 1, 2011, this report will no longer be needed.*

Business Process Procedure Overview
<p>House Bill 213 requires employees to use Sick and/or Converted Sick leave earned after 2005 (Program II) before using Sick and/or Converted Sick leave earned prior to 2006 (Program I). This is referred to as the "Last In First Out" (LIFO) rule. State Finance policy requires that this rule is enforced when an employee retires or terminates or at the end of each "Leave Year" whichever comes first. Per HB 213 the LIFO rule no longer applies as of January 1, 2011.</p> <ul style="list-style-type: none"> Adjustments to Pre-2006 sick leave balances can only be used to increase current sick leave balances Adjustments to Pre-2006 converted sick leave balances can only be used to increase current converted sick leave balances <p>This report lists active employees who have had hours deducted from their Program I Sick and/or Converted Sick leave balances and added into their Program II Sick and/or Converted Sick leave balances where all of those hours have not been used as determined by application of the LIFO rule.</p> <p>To comply with HB 213, department payroll/personnel staff shall monitor this report and perform quota adjustments for employees identified on the report to restore Pre 2006 Sick and/or Converted Sick hours that were made available for paid absences and remain unused. These adjustments must be made according to the following schedule.</p> <ul style="list-style-type: none"> The week prior to calendar (Leave Yearend) processing; and/or Just prior to processing a Retirement or Termination action for an employee <p>The data may be viewed as a Summary and/or a Detailed report. The data in the report is current as of the last date time evaluation was run. The report must be run separately for each leave type "Pre-2006 Sick" and "Pre-2006 Converted Sick".</p> <ul style="list-style-type: none"> Summary Report <ul style="list-style-type: none"> The amount of unused Pre 2006 hours that were made available for use and need to be moved back is listed in the "Hours" column, for each employee.
